### SAFETY FEATURES

- / RISE (Reinforced Impact Safety Evolution) Body Construction
- / 2 Airbags
- / Side-impact Protection Bars
- / ISOFIX Child Seat Anchors
- / ASTC (Active Stability and Traction Control)
- / ABS (Anti-lock Braking System)
- / EBD (Electronic Brake-force Distribution)
- / BAS (Brake Assist System)
- / HSA (Hill Start Assist System)
- / DRL (Daytime Running Lights)
- / Rear View Camera
- / Speed-sensing Auto Door Lock

### EXTERIOR

- / HID Headlamps with Levelling Device
- / Electrically Adjustable and Fold-away Mirrors
- / High-mounted Rear Stop Lamp (Tailgate)
- / Rear Window Demister
- / Side Steps
- / 17" Alloy Wheels

### POWER AND PERFORMANCE

- / Super Select II 4WD System
- / Rear Diff Lock
- / 28° Approach Angle
- / 22° Departure Angle
- / 25° Ramp Breakover Angle
- / 3100kg Towing Mass (Braked)

### INTERIOR

- / Tilt and Telescopic Adjustable Steering Column
- / Multi-function Leather Steering Wheel with Audio and Cruise Control
- / Bluetooth with Hands-free Voice Control
- / Touch-screen Radio/CD and MP3 Player
- / Dual-zone Automatic Air-conditioning
- / Electric Windows
- / USB and Accessory Sockets
- / Leather Seats
- / Electrically Adjustable Driver Seat

### 4X4 MODELS

- / Electrically Adjustable Fold-away Mirrors with Indicator Light
- / Keyless Operating System

### ENGINE

The Triton is powered by a super-responsive 2.4L turbo-diesel engine, rated one of the most efficient diesel engines in the world. This newly developed engine from Mitsubishi delivers exceptional fuel consumption due to a class-leading low compression ratio of 15.5:1. An aluminium cylinder-block construction reduces its weight by 30kg, resulting in improved responsiveness, handling and braking. With the new engine, coupled with a choice of two new transmissions and a fully revised suspension, the Triton delivers car-like ride comfort and superb driving stability at the same time.

### SUPER SELECT II 4WD SYSTEM

Mitsubishi's unique Super Select II 4WD system offers four different drive modes for improved driver control and passenger safety. The 4H drive mode distributes torque in a 40:60 ratio between the front and rear wheels for safer on-road driving in slippery conditions i.e. dirt, gravel and wet roads. 4HLc (4WD High range with CD locked) distributes torque equally between the front and rear wheels for improved traction on sand, dirt and slippery surfaces like snow. 4LLc (4WD Low range with CD locked) provides greater torque for extreme off-road conditions.

### COMFORTABLE DRIVE

Thanks to the all-new turbo diesel engine and good vehicle noise insulation, the inside of the new Triton is surprisingly quiet. Reduced noise means more comfort and less driver fatigue, resulting in a relaxing drive at high-speed driving or off the road. The new Triton's steering is easier and more responsive, offering the best-in-class turning radius, making it easy to park in tight parking spots in town and more manoeuvrable off the road. In addition, Triton has the longest interior cab length in its class which further contributes to a comfortable drive for the driver as well as the passengers.
