### CVT TRANSMISSION

Coupled to the 2.4L MIVEC engine, the INVECS-III CVT (Continuously Variable Transmission) with its 6-step Sports Mode delivers effortless acceleration from any speed, slicker gear changes and a smoother ride. Keeping the engine at optimum performance at all times, the CVT provides improved fuel efficiency and lower emissions. A smooth ride provides a comfortable driver experience, making everyday travelling and road trips relaxing thanks to exceptional space and luxurious style.

### SUPER ALL-WHEEL CONTROL

This innovative electronically-controlled AWD system uses intuitive sensors to maximise vehicle control, distributing power to all four wheels. Three on-demand driving modes balance fuel economy and driving performance: ECO Mode uses 2WD for improved fuel efficiency, but switches automatically to 4WD in slippery conditions, while the 4WD Lock Mode is a perfect driver aid in tougher off-road conditions.

### ON-BOARD ENTERTAINMENT SYSTEM

Passengers enjoy both long and short drives in the Outlander thanks to its 9-inch display and built-in DVD player mounted on the ceiling. The screen is easily visible for all rear passengers and controlled from the system panel or via remote from the rear. The system supports Bluetooth headphones creating the perfect surround-sound experience for all occupants with its 9-speaker Rockford Fosgate® Sound System offering 710W through an 8-channel high-power amplifier and sub-woofer.
